COMMUNICATIONS, PETITIONS, REPORTS

A **PUBLIC HEARING** was opened at 5:34 p.m. by Mayor Tebben for Council to contemplate the adoption of an Ordinance Authorizing the Purchase and Sale of Municipally Owned Real Estate and consider an agreement for the exchange of these parcels with the First Church of the Nazarene. The notice was properly published in the *Pekin Daily Times* on August 9, 2008. Public Works Director Joe Wuellner reported the Church approached the City in their desire to sell back a portion of right-of-way, .25 acres on Broadway and to purchase 1.22 acres on Veterans Drive, needed for entrance to the facility. It was felt there was no need for the real estate to be sold and the right-of way to be obtained could be beneficial to the City in a later expansion of Broadway Road. There were no additional comments received from the public and the Mayor called the hearing closed at

5:37 p.m.

CONCEPTUAL LAYERING OF WINSTON FARM SUBDIVISION – A preliminary layout of property bounded by Broadway Road on the north and California Road on the east was presented. The proposed development consisted of single family, duplex, and office/rental areas and received Pekin Planning Commission acceptance. City Manager Dennis Kief told Council the staff and developer was looking for response as to any red flags. Council Member Jones thought there might be a safety concern if streets did not lineup with adjacent development. Questions of street width and number of apartments were asked. Mayor Tebben remarked that the layout was zones not details of how many structures. Procedurally, the Council would need to approve a preliminary plat recommended by the Planning Commission. Council expressed appreciation in viewing early vision of the subdivision in advance. Thomas Harrington III and Shawn Luesse, Devonshire Randolph engineering were in attendance for questions.

FIRST QUARTER PRELIMINARY FINANCIAL REPORT a general explanation of revenues, expenditures, and fund balances was presented to Council from Angie Evans Assistant Finance Director and Treasurer James Wolf. Ms. Evans indicated at the end of one-quarter of the fiscal year no departments were over budget. Caution should be noted in that there were major expenses such as storm cleanup, Broadway Road patching and St. Clair storm sewer repair, with outstanding invoices to expend. The future did not look good.

Treasurer Jim Wolf spoke to Council on the investment side of City funds. He indicated that investments earnings for the first quarter were significantly less than projected. The interest rate dropped from 5.27 July a year ago to 3.01 July this year. Capitol projects would diminish the amounts to invest as the fiscal year progresses. Other revenues that drive the investment budget, sales tax revenue, was skewed in this quarter by federal stimulus checks. Distributed on time property taxes from the County also distorted the figures for comparison to last year's first quarter. Motor fuel tax revenues were down.

Mayor Tebben asked that a new report be given next month to evaluate the sales tax revenue. He also advised that Council needed to meet to look at corrections to the present budget.

NEW BUSINESS

Jac's Dog House – Beer Garden site

Discussion followed: view from street. Back of Beer Garden will be solid (facing the park) and the ends will have the view with emergency door. No restrictions on using wood or metal. Mr. Rodgers to get with the Fire Department on the emergency panic gate/door if there would be something in the code on being a wooden gate. Wooden fence will be 5ft tall.

Gillespie made a motion to accept the site plan with the conditions they make the front panel gate the appropriate size as required by statute and there is visibility with the front panel so that we can see in. Bowman seconded. Motion passed.

Further Discussion: Asked when they were planning on starting construction on the Beer Garden. Mr. Rodgers stated in a few weeks with construction completed by the middle of August. Beer Garden will be 30' by 15' with roof/awning. Actually it will be 39.2 feet. Acting Chairman advised Mr. Rodgers to work with Ron in the Inspections Department and with the Fire Department on the gates.

Grumpy Pete's – Beer Garden

Discussion followed: Notation on moving parking spots. 26 feet between the two spots. Ron Sieh was out to measure an 18, 18, 18 and we had 18, 18 and 24. Denny Mullens stated he thought the City suggested to make the Beer Garden decorative, but decided to make it out of wood. East end of Beer Garden will be the panic door, which will be made out of steel. 42" steel panic door. Will also have emergency lighting on the steel door to the roof. Questioned was asked if you can enter from the west foyer and walk straight into your Beer Garden? There is a glass door there, they won't have to go into the bar area. They will also be eating out there,

not just for the bar. More of an outdoor dining facility than a Beer Garden. Concerned with a separate entrance. More convenient to have two entrances. There won't be a bar out there, waitress would be serving alcohol and food. Chief's concern is the two entrances. Until the new construction is completed there will not be another entrance (more to the west of the building). The new section will probably be finished in about 3 weeks. Was hoping to pour the pad for the Beer Garden on Monday. Wanted to use that as his main entrance until the other construction is completed. If we were assured when this was done and you use the west entrance and only one entrance to the Beer Garden. Only entrance and exit right now is on the south side of the building. Asked if a panic door can be put on the west door make it an exit door only, just another exit which would be fine. After construction is complete the only way into the Beer Garden would be through the business. You would need 45 days to complete.

Gillespie made a motion to approve the Beer Garden with the condition that he has 45 days construction being complete on the new addition and the only entrance to the Beer Garden would be through the lounge area. Bowman seconded. Motion passed.

Further discussion: Minimum by Code is 5' fence. They plan on using cedar, 1x6 and spaced 2 ½ inches apart all the way along would look like a shadow fence.

Any Other Business to Come Before the Commission:

Illegal Gambling – received a complaint of illegal gambling that goes on around Pekin in the liquor establishments. All machines are licensed through the City Clerk's office, not illegal to have the machines and play on them; it is illegal on "pay outs" of the machines. City Clerk had sent out letters to the Liquor establishments in the past. Suggested letters go out to everyone who has Amusement Licenses in their establishments.

Bosich explained that this would be an automatic suspension of up to 6 months if an establishment were caught "paying out" on these poker machines.

Acting Chairman Eitenmiller tabled this discussion until the next Liquor Commission meeting so our Liquor Commissioner could be present.

Bosich stated there would be an upcoming Hearing on Kouri's for serving alcohol to minors.

Meeting adjourned at 4:37P.M. Next Meeting: Thursday, August 28, 2008 at 4:00pm

2008 Gaps Analysis Executive Summary

In October of 2007, a group of twelve City of Pekin and Tazewell County agencies that work with the target population of homeless or those at risk of becoming homeless began meeting to discuss a possible project for the HUD funding mechanism for the Heart of Illinois Homeless Continuum of Care. The participants felt that it would be best to conduct a gaps analysis of the target population and then develop a project to submit for the 2009 grant application (January 2009). This would allow time to properly plan and administer the resulting project once it was identified by the gap analysis.

There are housing gaps present for the target populations of domestic violence, elderly, public and affordable housing. There are services gaps present in the coordination of services, energy assistance, rent/house payments, dental services, prescriptions, non-food items, optical, and purchasing food.

Once the gaps are identified, the agencies can work towards a common goal of filling the gaps and meeting the housing and supportive service needs of the ever increasing number of homeless and those at risk of becoming homeless.

For we are all people and what affects one, truly affects all...

2008 Gaps Analysis of Tazewell County Narrative - Housing

Domestic Violence:

At the snapshot date of 1/31/08 there was a vacancy of 16 beds at the House of Hope. A follow up call was made to the Director Earlene Marion to discuss the number of vacancies at the snapshot date. She informed City staff that there is a high occupancy in spurts – usually during the summertime (after school has ended) and during the holidays. She stated that 5 times a year they are filled to capacity and have to refer people to the Center for Prevention of Abuse in Peoria.

The House of Hope average length of stay is 30-45 days. House of Hope evaluates the clients for their stability and moves them towards finding appropriate housing. This may include their own apartments, housing authority units, subsidized housing and section 8 vouchers.

Issues: boys 14 and older can not stay at the House of Hope

Persons with severe mental illness:

At the snapshot date of 1/31/08 there was a need of 11 beds in this category. Tazwood Mental Health is looking into employment assistance program and has a 14 unit facility under construction. TCRC has a new 6/8 bed project.

Veterans:

Tazewell County Veterans Assistance provided the following information: homeless occurrence is once in awhile. However, they do provide emergency assistance cash to 34-35 Veterans a month (\$250 single & \$330 married).

Specific information on Veterans in Tazewell County was difficult to accumulate. The Heart of Illinois Homeless Continuum of Care 2007 Street Sweep estimated that there were 75 homeless veterans in Tazewell County using the national average of 1/3rd of the homeless population are Veterans.

Tazwood Mental Health is looking into the Veteran population group further with a possible housing / 1 stop shop project. Tazwood indicated that next year (2009), this area is anticipating 3,000 troops to return. Their information gathering will focus on the questions of will there be a need for housing and services for the returning troops?

Elderly:

At the snapshot date of 1/31/08 there was a need of 287 beds in this category. After some discussion of the group of housing and service providers in Tazewell County, we felt that this number was misleading and that they are not seeing this number of elderly in need of housing. This number may be duplicate counts – an elderly person may be on more than one waiting list for housing. Also, the elderly may be living in their current house and

Narrative - Housing

waiting for the call to be placed in housing. However, the Group felt there is still a need for affordable senior housing.

Physically Disabled:

At the snapshot date of 1/31/08 there was a need of 18 beds in this category. Pekin Housing Authority provides housing for this population group at Golden Arms.

Discharged from Prison/Jail:

The Federal Prison has a discharge policy in place. However, there was an issue brought up that it is difficult to locate the discharged individual at the address that they provide upon release. Safe Haven, a transitional program, is/was looking for a new location with 39 beds.

General Population (not within the other categories):

At the snapshot date of 1/31/08 there was a need of 664 beds in this category. After some discussion of the group of housing and service providers in Tazewell County, we felt that this number was closer to 550. There is an approximate waiting list of two (2) years for housing at the Pekin Housing Authority and the Rust Transition Center is usually running at full capacity. There is no emergency shelter located in Tazewell County.

AGENDA ITEM: Amending Title 3 of the City Code

AGENDA DATE REQUESTED: September 8, 2008

ACTION REQUESTED: Approval of Code amendments

BACKGROUND: With the introduction of roll-off containers for construction debris in place of trucks, the number ending up on City streets has increased. In an effort to control these containers being placed on the street, alley, or other public right of way, which is prohibited in Title 4 of the City Code, when other locations are available is why the code is being amended. Title 3 is being amended to require licensing of any company doing business in the City of Pekin and requiring a permit to place a container in the street, alley, or any public right of way. It is recognized that there will be locations where the container cannot be placed on the owner's property so placing it on the street is the only option. This permit will have a daily charge to encourage quick use and removal of the containers. Code has a penalty clause for failure to comply.

FINANCIAL IMPACT: Minimal revenue increase for licensing and permits

NEIGHBORHOOD CONCERNS: Keeps these containers out of the streets where they are unsightly and pose a hindrance to traffic.

IMPACT IF APPROVED: Location and length of time will be controlled.

IMPACT IF DENIED: Containers can be left on the streets without penalty.
